EDUCATION

Thiagarajar College of Engineering — Madurai, Tamil Nadu
B.Tech (Information Technology) — **2023 – 2027**
CGPA: **8.65**

St. Montfort School Higher Secondary School — Trichy, Tamil Nadu
Class XII (CBSE) — **2021**
Percentage: **93.4**

St. Montfort School Higher Secondary School — Trichy, Tamil Nadu
Class X (CBSE) — **2019**
Percentage: **75.4**

AREAS OF INTEREST

Cloud Security & Monitoring, Full Stack Development

TECHNICAL SKILLS

- **Programming Languages:** Python, Java
- **Tools & Platforms:** Git, Docker, Kubernetes
- **Security & Monitoring:** Falco, Grafana
- **Software Testing:** Functional Testing, UI Testing, Regression Testing
- **Web Development:** HTML, CSS, NodeJS, MySQL

PROJECTS

Microservices Security Logging Framework *(Kubernetes, Falco, Grafana, Python, Docker)* — **Feb 2026 – Jun 2026**
Hewlett Packard Enterprise (HPE) - Career Preview Program

- Built a **centralized Kubernetes security-monitoring pipeline** to consolidate scattered audit and container runtime events, enabling faster analysis of suspicious activity across microservices.
- Integrated **Falco** to monitor container **system calls** for real-time threat detection, with **Grafana** dashboards providing visibility into suspicious cluster activity and security events.

Aratro: Agricultural Supply Chain Platform *(Python, Blockchain, Ganache)* — **Mar 2025 – May 2025**
Team Project (Team Size: 5)

- Developed **warehouse-side inventory, quality, and transaction workflows** for the PDS supply chain, enabling real-time stock tracking and contributing to a **25% reduction in food wastage**.
- Integrated warehouse operations with the **Python backend and blockchain-based system**, improving transaction traceability and enhancing overall **supply-chain efficiency by 35%**.

PROFESSIONAL EXPERIENCE

SEZ US — Remote
Software Testing Intern — **Jun 2025 – Oct 2025**

- Evaluated core workflows of a **reputation-based social media platform** focused on civil discussions with user-driven moderation, assessing **functionality, UI behaviour, and overall user experience**.
- Identified and documented defects, verified application features against requirements, and performed **post-fix verification** to confirm issue resolution and improve software reliability.

LEADERSHIP & ACTIVITIES

- **Office Bearer, IT Association:** Led volunteer coordination for technical symposiums and cultural events.
- **Technical Team Member - Entrepreneurship Cell (E-Cell):** Organized flagship events such as Schrödinger Cat and GBU for **800+ participants**.
- **Multiple-Time Runner-Up (2023–2025):** HackFest, Pitch Perfect, CaseLabs, Blind Coding, and Web Design competitions.
